

**Dear All,**

I would like to congratulate the organizers of the Young Public Managers and Developers' Summit for Good Governance for continuing the legacy of training the next generation's leaders for future leadership roles in the different levels of governance.

The Centrist Democratic Youth Association of the Philippines is with you in this role of nourishment, as we acknowledge the fact that there must always be sustainability and continuity in the good work that has been put up by today's generation of young leaders.

By Strengthening Youth Capacities, young leaders are equipped with the knowledge and abilities that are required by the changing world to continuously innovate, re-invent and trend blaze new ways by which we can make our nation more progressive and developed.

Our common and collective goal in this endeavour is to actualize our mission for Good Governance, with the hope that the lives of those we serve will be better off.

Let us all continue our work and let us continue to inspire many more young people to take part, to engage and to participate in political and socio-civic affairs.

Least we forget, let us always bear in mind the values of preserving and upholding Human Dignity, empowering our young and old with the proper skills and values, placing social responsibility to each one correlative to their rights while maintaining the integrity of our thoughts and deeds- the shared values we all have as modern day young progressive democrats.

Again, my gratitude and congratulations to all of us!

Mabuhay ang Kabataang Kumikilos para sa Bayan!

**AARON BENEDICT DE LEON**

National Chairperson, Centrist Democratic Youth Association of the Philippines  
Convenor, Kabataang Kumikilos para sa Bayan
